Summary

I graduated in 2023 with a degree in Information Technology and a passion for crafting user-friendly web experiences. My senior project, "Tell," focused on cutting-edge image caption generation, showcasing my expertise in applying technology to solve real-world problems. I'm proficient in HTML, CSS, JavaScript, and React, and I believe in continuous learning and adapting to the ever-evolving landscape of web development. Beyond technical skills, my studies in leadership at Wichita University have honed my ability to collaborate effectively and drive projects to success. I believe these skills make me a valuable asset to any team, and I'm eager to contribute my passion and expertise to create impactful and user-centric websites.
